
SOLARGAIN PROUD TO ANNOUNCE SILVER CHAIN SPONSORSHIP

JULY 2011

Solargain has appreciated the support of its thousands of customers and has always wanted to give back the community when it was able. As a result of now having grown to become one of the leaders in our industry in many parts of Australia the time was right to engage in our first large scale community based sponsorship.

For the next two years you will see Silver Chain's fleet of 440 vehicles carry the Solargain logo as their major sponsor for the next two years. The funding provided by Solargain will greatly assist the organisation to continue and expand the valuable medical treatment and care work they have provided the WA community since 1905.

Silver Chain was chosen as the first recipient of Solargain's community sponsorship program due to the personal connection our Managing Director Domenic Mercuri has with the organisation.

"My grandparents were both cared for in their latter years by Silver Chain and I was privileged to witness firsthand the care and support that Silver Chain is able to provide. They made my grandparents' life more comfortable and greatly assisted me to manage my own family commitments at the time."
